

The Moment

Families with thin buffers are one shock from crisis. We offer a structural response: a perpetual fund—never spent—held in trust and managed for community, so dignity flows without depleting capital.

What 'First-In' Unlocks

- Credibility and cadence — weekly milestone reporting and a clear restoration ratio.
- Signal to partners — parishes, employers, and philanthropists align behind a working model.
- Replication readiness — a template that can be licensed responsibly beyond Cornwall.

Your Role as Early Steward

- Shape governance: verification cadence, safeguards, and restoration thresholds.
- Back the first light: one household, then a disciplined path to 500 savers.
- Protect the corpus: compassion with prudence as a structural norm.

Why Cornwall First

A compact theatre to prove the mechanism in public view yet with privacy for families. From here, we replicate with integrity.
